To Whom It May Concern:

RazorEdge was an invaluable partner who not only provided Architectural and Subject Matter Expert support, but development expertise in both Microsoft Office Sharepoint Server and Commerce Server during our Global Web Framework project. They helped us with the initial planning and architecture and worked closely with Sapien and Razorfish to ensure a high quality, high performance solution.

Reynaldo Zabala was instrumental in the beginning phases of the project. His vision and knowledge of the products we were implementing was unmatched. He was also very quick to pick up on the subtleties of our unique business model and used that understanding to deliver effectively.

I highly recommend Reynaldo and RazorEdge to anyone implementing Microsoft Commerce Server especially if their plans also include MOSS.

Please feel free to contact me if you need any further information.
