

February 20, 2009

To whom it may concern,

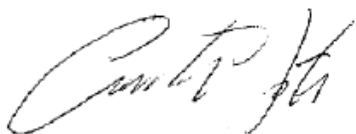

I am writing to recommend RazorEdge as a highly valued and competent E-commerce services partner. I leveraged RazorEdge on a large E-commerce engagement and they did a superb job collaborating with our Microsoft Consulting Services (MCS) team to define the Vision Scope, the Architecture, the Requirements, the DEV/TEST/Staging environments, along with the development and release of our formal Release Candidates (RC1, RC2, etc.). Under Rey's leadership the RazorEdge delivery team consisting of:

- o James Hurst
- o Greg McKinley
- o Michael Kliegl
- o Adam Kahtava
- o James Steele
- o Kyri Miltiadous
- o Working side by side with MCS

...helped our MCS team to deliver on a critical multimillion dollar services engagement and solidify our relationship with the customer.

Please feel free to contact me at 415.972.6554 should you have any questions.

Sincerely,

Courtenay Yates
Director of Application Service Line
