To Whom it May Concern,

I am writing to recommend RazorEdge for the work they performed at Monster.com from February 2007 to August 2007 while I served as Director of Architecture. Rey Zabala and his team were fantastic partners on a high profile project with extremely aggressive deadlines. The team proved to me that they had a mastery of Commerce Server, SQL Server, C#, and other technologies. They also provided leadership with respect to how Microsoft products could be used to further our strategic and tactical goals. I was quite impressed with the team's ability to effectively communicate with a variety of stakeholders as well, from executive management, to business personnel, to our software developers. I would highly recommend RazorEdge as a valued partner of Microsoft. If you have any questions, please feel free to contact me at 603-329-6120.

Yours Truly,

Rob Daigneau
President, ArcSage LLC
